

Power Purchase Agreement — Term Sheet

SAMPLE / SYNTHETIC DOCUMENT - Prepared for demonstration purposes only. This is an illustrative, non-binding term sheet and does not represent a real executed agreement, real counterparties, or real commercial terms.

Summary of Key Commercial Terms

Term	Provision
Seller	Greenfield Solar Holdings I, LLC ("Seller")
Buyer	[Offtaker Name] ("Buyer")
Facility	120 MW(AC) solar photovoltaic generation facility with 80 MW / 320 MWh co-located battery energy storage system, located in ERCOT ("Facility")
Point of Delivery	ERCOT Settlement Point associated with the Facility's Point of Interconnection
Contract Term	15 years from the Commercial Operation Date ("COD"), with two 5-year renewal options at Buyer's election
Expected COD	Q4 2026, subject to interconnection milestones and Force Majeure
Contract Price	\$34.50 / MWh (fixed, escalating 1.5% annually from Contract Year 3 onward)
Contract Quantity	100% of Facility's net delivered output up to a contractual cap of 450,000 MWh per year
Settlement Methodology	Pay-as-produced; Buyer pays Contract Price for actual delivered energy as measured at the Point of Delivery and verified against ERCOT settlement data
Availability Guarantee	Seller guarantees minimum annual Facility availability of 95%; shortfall below guarantee triggers liquidated damages per Section 8.2
Curtailment	Buyer bears the financial risk of ERCOT-directed curtailment; Seller bears the risk of curtailment caused by Facility outages
Credit Support	Seller shall maintain a performance security in the amount of \$2,500,000 for the Delivery Term
Termination for Default	Either party may terminate upon uncured material breach following 30 days written notice and cure period

8.2 Availability Guarantee — Shortfall Remedy

If the Facility's measured annual availability falls below the 95% Availability Guarantee in any Contract Year, Seller shall pay Buyer liquidated damages calculated as: (Guaranteed Availability – Actual Availability) × Contract Quantity × Contract Price, prorated for the affected Contract Year. This remedy constitutes Buyer's sole and exclusive remedy for an availability shortfall, absent gross negligence or willful misconduct.

9.1 Curtailment Allocation

Energy not delivered as a result of a curtailment order issued by ERCOT for system reliability purposes shall be treated as deemed delivered for settlement purposes, and Buyer shall pay Contract Price for such deemed energy. Energy not delivered due to a Facility outage, forced or planned, shall not be treated as deemed delivered, and no payment shall be due for the corresponding undelivered quantity.

12.1 Conditions Precedent to COD

Achievement of Commercial Operation Date is conditioned upon: (i) execution of a fully effective Interconnection Agreement with the relevant Transmission Service Provider; (ii) ERCOT registration of the Facility as a Resource Entity; (iii) successful completion of all required commissioning tests; and (iv) receipt of all permits required for commercial operation.

Open Items for Negotiation

- Final allocation of interconnection upgrade costs between Seller and the interconnecting Transmission Service Provider
- Scope and pricing of optional capacity/ancillary services participation by the co-located BESS
- Buyer's step-in rights in the event of a Seller financing default
