

Vendor Pricing Summary

SAMPLE / SYNTHETIC DOCUMENT - Project: Greenfield Solar + BESS Interconnection, Phase 1. All figures are illustrative and do not reflect real vendor quotes.

Cost Breakdown

Cost Category	Vendor	Estimated Cost (USD)	Notes
Power transformers (3x)	Vendor A	\$4,200,000	12-month lead time
Medium-voltage switchgear	Vendor B	\$2,850,000	Includes installation support
BESS containers (20 MWh)	Vendor C	\$6,100,000	Price firm through Q3 2026
Protection & controls equipment	Vendor D	\$1,150,000	
Civil & foundation works (labor)	Vendor E	\$3,400,000	Subject to site conditions survey
Construction contingency (10%)	-	\$1,770,000	Per project policy
Total estimated cost	-	\$19,470,000	

Notes

- BESS container pricing is firm through Q3 2026; pricing is subject to renegotiation if order is placed after September 30, 2026.
- Civil and foundation cost estimate assumes standard soil conditions; a geotechnical survey is scheduled prior to final vendor commitment.
- Contingency is calculated per company policy at 10% of all line items excluding contingency itself.
